

Conical Competence

The new Eppendorf Conical Tubes 15 mL and 50 mL

The Eppendorf Tubes® – Best Performance for Your Samples

The Eppendorf Conical Tubes 15 mL and 50 mL extend the volume range of Eppendorf's microcentrifuge tubes. They provide life science laboratories with the same outstanding performance for which Eppendorf Tubes are globally recognized as a premium standard.

Safe design and easy handling ensure best sample processing. The Eppendorf Conical Tubes 15 mL and 50 mL are the optimal solution for cell culture and cell biology applications as well as for sample preparation protocols in microbiology and molecular biology laboratories.

Cap with flattened and grooved sides
 > supports a user-friendly ergonomic handling
 > enables a stable upright positioning
 > minimizes contamination risk

Reliable and safe labelling
 due to a large writing area on the tube and due to a flat and light-colored cap

Precise dimensions
 enable maximum compatibility with centrifuge rotors, mixers and shakers

Premium USP class 6 raw material and no use of slip agents, plasticizers, and biocides during manufacturing ensure

> highest sample integrity
 > high g-Safe® centrifugation stability
 > optimal sample and pellet visibility

Sterile and pyrogen-free

> DNase-, RNase-, and DNA-free
 > each individual lot is checked and certified for quality and purity

Whether centrifugation, mixing, or other applications — the Eppendorf Conical Tubes 15 mL and 50 mL will perfectly fit into your workflows. They represent the next step in Eppendorf's comprehensive system solutions in liquid, sample and cell handling.
