Your Turn

Eppendorf Tubes® 5.0 mL - now with screw cap

Choose the optimal Eppendorf Tubes 5.0 mL for your laboratory needs: Whether centrifugation, incubation, storage, or other applications - the Eppendorf 5.0 mL system provides the ideal solution for handling samples in the low to medium volume range.

- > High g-safe® stability enables safe and fast centrifugation steps
- > The new screw cap combines user-friendly handling with an exceptionally tight seal
- > Highest sample integrity as no slip agents, plasticizers, or biocides are used during manufacturing
